

# SIGN UP for In Our DNA SC

Have your sample collected at the Greenwood Genetics Center!

MUSC's In Our DNA SC community health research project is looking to enroll 100,000 South Carolinians to learn more about your genetic risk for certain cancers and heart disease at no cost to you. With your participation, we can create a healthier South Carolina for generations to come. Over time, this information will help researchers learn what may cause certain diseases, how to treat them more effectively and help improve the standard of health care for all.

## What to Expect

To join In Our DNA SC, you will review and sign a research consent form. Once you have signed and submitted the consent form, you can then provide your saliva sample in person at Greenwood Genetics Center. Your saliva sample will be sent back to our lab partner, Helix, for analysis.

## How to Sign Up

To sign up for In Our DNA SC, please visit our website: [web.musc.edu/inourdnasc](http://web.musc.edu/inourdnasc)

1. If you already have an established MUSC MyChart Account, click on the blue "Sign Up Now" button at the top of the webpage. You will be asked to login with your MUSC MyChart credentials which will then send you directly to the consent form.
2. If you do not have an established MUSC MyChart Account, there are instructions on our website under the "How to Sign Up" section.
3. If you experience difficulties with logging into your MyChart or creating an account, please reach out to MyChart Support at [MyChartSupport@muscd.edu](mailto:MyChartSupport@muscd.edu) or you can call the MyChart Patient Support Line at 1-843-792-3111.

**You do not need to schedule an appointment.  
We will collect your sample when you arrive on October 7**

4. Please note, there are two options we currently provide for sample collection. Choose "In-person."
  - a. At-Home collection: a test kit will be mailed to the address provided in MyChart within one month of signing the consent form.
  - b. In-person: any participant enrolled in the study that is not receiving an at-home collection kit may provide their sample at any participating MUSC lab. A comprehensive list of participating lab locations can be found here.
5. Once you have reviewed the consent and selected your preferred method for sample collection, you will then submit the consent form and download your own copy for your records.

## Sample Collection

**Where: Greenwood Genetics Center**

**When: October 7, 2023**

Note: You cannot eat, drink, smoke, or chew gum 30 minutes prior to giving your sample
